

2019 PMC Antarctica

Dear PMC Members,

Expression of Interest

Antarctica is one of the 7 continents in the world that few people experience even though it is on many people's "bucket list". It is the one continent that many do not get to visit due to the remoteness and cost of going there.

Extract from PMC Advisory member and Victorian Branch Manager **Carol Worboys** who was on the 2011 PMC Antarctica tour with her husband Phil and other PMC members:

"Things happen here a lot faster than I can send emails but when the opportunity arises, things are rearranged to take advantage of the given situation. We have been up close and personal to penguins, seals, icebergs to name just a few.."

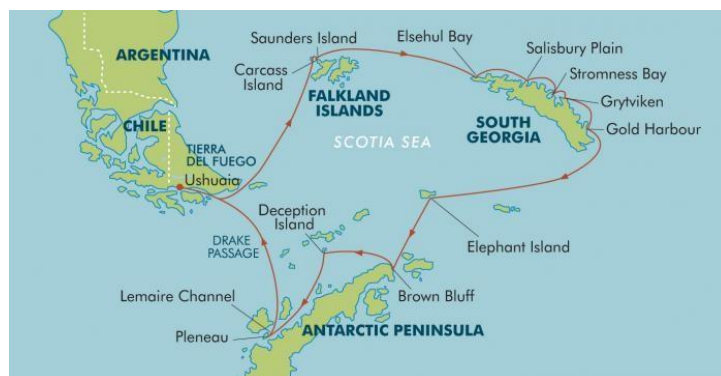

"Minus 1C deg and snowing, but a beautiful day 66 deg south, the farthest south that a cruise ship can go, and only the second time in 3 years that this ship has been able to get! So..... we are geared up in 10 minutes (getting better), ready to board the zodiacs to visit the British Meteorology station that was abandoned in 1959 and currently being restored. Unfortunately for the inhabitants, the first good day in weeks and they are inundated with visitors! "

The question is what part of this area do you want to experience?

In 2019 we are looking at also including Sth Georgia Island .

Already as number of members have expressed interest in joining this PMC travel event. If this tour interests you please email to tour director Sharyn Bojczenko so planning can commence.

Please don't hesitate to contact Sharyn if you have any questions or requests about this tour.
